## EXPERIENCE

August 2015 - Current

### **Informatics, Graphic Web Design and Advertising My Own Company & Self-Employment | İstanbul, Turkey**

As a creative and technology-savvy web graphic designer, I provide effective solutions across the vast spectrum of the digital world. With a foundation built from the ground up, I possess deep knowledge and skills in web design and development. My professional background encompasses extensive experience in web hosting, IT, media, advertising, social media, and other technology-focused fields. Through my dynamic and innovative projects, I help brands strengthen their digital identities and achieve their business goals.

#### **Areas of Expertise:**

- **Web Graphic Design and User Experience (UX/UI):** I create modern and aesthetically pleasing designs, enhancing user experience and improving website performance. Adhering to responsive design principles, I ensure a flawless appearance and functionality across all devices.
- **Web Hosting and Server Management:** I have in-depth knowledge of web hosting services, server configuration, data backup, and security. I follow best practices to ensure websites operate reliably and perform optimally.
- **Information Technology and Systems Management:** With broad expertise in software development, system integration, database management, and network management, I offer technological solutions that enhance operational efficiency for businesses.
- **Media and Advertising Strategies:** I have experience in digital media strategies, online advertising campaigns, brand awareness creation, and marketing strategy development. I plan and execute media and advertising campaigns to effectively reach target audiences.
- **Social Media Management and Content Creation:** My background includes developing content strategies for social media platforms, community management, engagement enhancement, and performance analysis. I strengthen brands' online presence through impactful social media campaigns.
- **Information Security and Risk Management:** I am knowledgeable in information security, cybersecurity threats, and risk management. I implement necessary measures to protect data and ensure a secure digital environment.
- **Data Analytics and Reporting:** I am skilled in data analysis, performance monitoring, and reporting. By analyzing and reporting data, I contribute to strategic decision-making processes.

#### **Career Achievements:**

- Developed innovative and aesthetically superior web designs with a focus on user experience in high-profile projects.
- Enhanced customer satisfaction through web hosting and server management, minimizing operational disruptions and delivering reliable services.
- Strengthened businesses' technological infrastructures through successful IT and system integration projects.
- Increased brand visibility and market share through effective media and advertising strategies.
- Boosted brand awareness and established strong connections with target audiences through impactful social media campaigns.
- Provided reliable and effective solutions in information security and risk management.

January 2011 - December 2014

**Technical Production-Publication National TV | Elazığ, Turkey**

As a graduate of the Technical Broadcasting and Production Communication Vocational High School, I have received comprehensive training in media and communication fields and had the opportunity to develop my skills in these areas. Throughout my education, I gained in-depth knowledge in television and radio program production, media content creation, and broadcasting. By actively participating in projects, I enhanced both my creative and technical abilities. I am now eager to build a professional career in the media and communication sector and contribute by applying the knowledge and experience I have acquired.

**Skills:**

- **Media Content Production:** Experience in planning, designing, and producing various content for television, radio, and digital media.
- **Broadcasting Technologies:** Knowledge and practical skills related to broadcasting equipment, software, and technical infrastructure.
- **Project Management:** Ability to plan, execute, and complete media projects from start to finish.
- **Communication and Coordination:** Effective communication, teamwork, and collaboration with project stakeholders.
- **Creative Thinking:** Ability to generate innovative ideas and provide creative solutions.
- **Technical Knowledge:** Familiarity with video and audio editing software, visual effects, and digital media tools.
- **Problem Solving:** Skill in quickly diagnosing and resolving technical issues.
- **Time Management:** Capability to manage project deadlines and prioritize tasks effectively.

February 2015 - Current

**Video Production My Own Agency & Self-Employment | Elazığ, Turkey**

As a graduate of the Technical Broadcasting and Production Communication Vocational High School, I have received specialized training in video production and multimedia production. My education has equipped me with a strong foundation in video shooting, editing, and post-production processes. Throughout my studies, I have gained hands-on experience with various video production techniques and tools, and actively participated in diverse video projects. I am now eager to apply my skills and knowledge to contribute to the video production industry and advance my career in this field.

**Skills:**

- **Video Production:** Expertise in filming, editing, and producing high-quality video content for various platforms and purposes.
- **Video Editing:** Proficient in using industry-standard video editing software (e.g., Adobe Premiere Pro, Final Cut Pro) and techniques to enhance video content.

- **Cinematography:** Skilled in operating camera equipment, including lighting and audio gear, to achieve desired visual and audio effects.
- **Creative Direction:** Ability to conceptualize, storyboard, and plan video projects, ensuring alignment with creative vision and objectives.
- **Project Management:** Experience in managing video production projects from initial concept through to final delivery, including timeline and resource management.
- **Sound Design:** Knowledge of integrating sound design and audio elements to enhance the overall quality of video content.
- **Technical Proficiency:** Familiarity with video production tools, software, and equipment, including cameras, lighting, and audio recording devices.
- **Collaboration:** Strong communication and teamwork skills, with experience working with directors, producers, and other creative professionals.
- **Problem Solving:** Effective at troubleshooting technical issues and resolving challenges during the video production process.
- **Time Management:** Capable of managing multiple projects and meeting deadlines in a fast-paced production environment.

May 2010 - Current

#### **Music Production Local Production Company | Elazığ, Turkey**

As a graduate of the Technical Broadcasting and Production Communication Vocational High School, I have received specialized training in music production and audio engineering. My education has provided me with a solid foundation in the technical and creative aspects of music production, including recording, mixing, and mastering. Throughout my studies, I gained hands-on experience with various production tools and techniques, and actively participated in music production projects. I am now looking to leverage my skills and knowledge to contribute to the music industry and pursue a career in music production.

#### **Skills:**

- **Music Production:** Expertise in recording, mixing, and mastering music tracks, and familiarity with industry-standard production techniques.
- **Audio Engineering:** Proficient in operating audio equipment and software, including digital audio workstations (DAWs) and various plugins.
- **Creative Composition:** Ability to create and arrange music compositions, including understanding of music theory and arrangement.
- **Project Management:** Experience in planning, executing, and managing music production projects from start to finish.
- **Sound Design:** Skills in designing and manipulating sounds to achieve desired audio effects and aesthetics.
- **Technical Knowledge:** Proficiency with audio editing software, sound recording equipment, and studio acoustics.
- **Collaboration:** Effective communication and teamwork skills, with experience working with artists, producers, and other stakeholders.
- **Problem Solving:** Quick identification and resolution of technical issues during recording and production processes.
- **Time Management:** Ability to meet project deadlines and prioritize tasks efficiently in a fast-paced environment.
